

# Paul Soteropulos

(985)-789-1690 | Mandeville, Louisiana | [psoteropulos@gmail.com](mailto:psoteropulos@gmail.com)  
Portfolio: [psoteropulos.com](https://psoteropulos.com) | [LinkedIn](#) | GitHub: [github.com/PSoteropulos](https://github.com/PSoteropulos)

## SKILLS

**Languages** JavaScript, TypeScript, Python, Go, SQL  
**Frontend** React, Next.js, TailwindCSS, Redux, custom WebSocket/SSE clients  
**Backend** Django, Go (gorilla/mux), Node.js/Express  
**Infra** PostgreSQL, MongoDB, Redis, Docker, AWS, Terraform  
**Tools** Git, CI/CD, Jira/Agile, AI-assisted development (Claude Code)

## PROFESSIONAL EXPERIENCE

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |                                                      |                            |
